## Section 1 – Introduction

This directory provides a list of Your Plan’s network providers. To get detailed information about your health care coverage, please see your Evidence of Coverage (EOC).

Additional benefits that are not covered by Original Medicare may be included in your plan benefits package. Benefits such as vision care, additional dental services, and hearing services (including hearing aid) may be included. Please see the “Additional Benefits” section in Chapter 4 of your Evidence of Coverage, to see if your plan includes any of these benefits. Note: Some “Additional Benefits” may require you to use a specific provider, please see your Evidence of Coverage for additional information.

Services from these providers will not be covered, if your plan does **not** include these additional benefits.

### Choosing a Primary Care Physician (PCP)

You will have to choose one of our network providers who are listed in this directory to be your **Primary Care Physician (PCP)**. The term “PCP” will be used throughout this directory. Generally, you must get your health care coverage from your PCP, unless it is an emergency or your PCP refers you to a network specialist. Your PCP is your primary doctor. You will need to call the PCP you would like to visit to find out if he or she is accepting new patients. If you chose a PCP who is not taking on new patients, we will reassign a PCP to you who is taking new patients. You are not required to stay with any given PCP. You can choose another PCP who is accepting new patients by calling Customer Service at the number listed on the back cover of this directory. Your PCP plays an important role in your health care, and we want you to feel comfortable with the PCP you choose.

Your PCP can help you:

- Make smart lifestyle choices to improve and maintain your health
- Perform preventive care and screen for health conditions

- Better understand your medical condition(s)
- Coordinate the care you get from specialists to help avoid duplicative and expensive tests. Your plan may require your PCP to coordinate any specialist care you receive
- Manage your prescriptions and identify possible harmful interactions

You **must** get a referral from your PCP if you need to see a network specialist or other network provider who is not your PCP with the exception of an emergency or urgent care. If the network specialist wants you to come back for more care you must check with your PCP to make sure your referral includes the additional care.

If you do not have a proper referral from your PCP, neither the plan nor Medicare will pay for services, supplies, treatments, surgeries and/or drug therapies for which a referral is required. This does not apply to emergency services, urgently needed services, out-of-area dialysis and poststabilization care services.

It’s important to remember that your PCP will refer you to a network based on his or her referring practices and hospital affiliation. The presence of a particular network specialist in this directory does not mean that your PCP will refer you to that provider.

The “network providers” listed in this directory have agreed to provide you with your health care, vision and dental coverage. You may go to any of our network providers listed in this directory if your plan includes additional benefits or you have signed up for an optional supplemental benefit; however, some services may require a referral. If you have been going to one network provider, you are not required to continue going to that same provider. In some cases, you may get covered services from non-network providers.

### You can ask our plan to pay our share of the cost of your covered services

At times you may get a bill from a network or non-network provider for the full cost of the medical care you received. In many cases, you should not pay the

---

---

bill but instead send it to us. We'll look at the bill and decide if the services should be covered. If we decide they should be covered, we'll pay the provider directly. Please call Customer Service at the number listed on the back cover of this directory, or see your Evidence of Coverage, for more information.

## **Emergency and Urgently Needed Care**

If you have a medical emergency, **get help as quickly as possible**. Call **911** or go to the nearest emergency room or hospital. You can always get emergency care from the nearest available provider, whether or not they are a network provider. Your plan covers emergency services whether you are in or out of the service area. Our plan covers ambulance services when getting to the emergency room in any other way could harm your health. You or someone else should call and tell us about your emergency care, usually within 48 hours.

**You must use plan providers for urgent care. When out of the service area urgent care may be obtained from the first available provider. In addition, when out of the service area you can obtain dialysis treatment from any qualified dialysis provider. If you obtain routine care from out-of-network providers neither Medicare nor your plan will be responsible for the costs.**

## **How to access your behavioral health benefit**

To access your behavioral health benefits directly, please call Customer Service at the number on the back of your member ID card.

## **Choosing a vision provider**

Review the Additional Benefits section in Chapter 4 of your EOC to make sure your plan includes vision care coverage. Then see if the coverage includes routine eye exams and/or routine eye wear. It's important to understand your specific details about your plan benefits, rules and limitations.

- To get the most benefits possible for routine eye exams, choose a network provider when you want to receive covered services.

- To get the most benefits possible for routine eyewear, choose a network provider when you want to receive covered services. If your plan allows you to choose a non-network provider, please refer to your EOC for reimbursement instructions.

**If your plan does not include vision care and you get services from one of these providers, your services will not be covered.**

## **Choosing a dental provider**

### **Additional dental services**

Review the Additional Benefits section in Chapter 4 of your EOC to make sure your plan includes additional dental services. If it does, choose a contracted provider to get the most benefits you can, and make an appointment.

## **How to change a dental provider**

### **Additional dental services**

You may change contracted providers at any time. Simply choose another contracted provider from this directory and make an appointment. The plan cannot guarantee the availability of contracted providers. Some offices may have been added or removed since this list was last printed. For information on additional locations, contact Customer Service at the number on the back of your member ID card.
